

Critical Quality Complaint

Subject: Critical Quality Complaint – CardioSafe 10 mg Tablets, Batch CS240817

Dear Quality Assurance Team,

I am writing to formally report a quality complaint regarding **CardioSafe 10 mg Tablets**, manufactured by **ApexPharma Laboratories**. The product is supplied as **10 mg immediate-release tablets** in **PVC-Alu blister packaging**.

The complaint was received from **St. Jude Memorial Hospital** on **13 September 2026**. The affected product is from **Batch Number CS240817**, manufactured on **17 August 2026**, with an expiration date of **16 August 2028**.

The hospital reports that **25 tablets** were affected. Upon opening an intact blister pack, several tablets were found to be **severely chipped and cracked**, with visible powder present inside the blister pockets. The affected tablets also showed **abnormal yellow discoloration** compared with the standard product appearance.

The complaint is classified as a **Product Quality / Physical Defect** involving tablet damage, powder leakage, and abnormal discoloration. The product was purchased from **Cornerstone Pharmacy, Downtown**, under **Rx Number 9982415**.

The affected samples, original blister packaging, and purchase receipt have been securely retained and are available for laboratory investigation. Please initiate the appropriate QA investigation and batch evaluation and provide recommendations regarding further handling of the affected product.
